

5-year housing land supply & housing trajectory report *erratum*

05/June/2019

- a) Secondary data for MEL1 (17/00711/REM) was incorrect. The number of units for the Reserve Matters application is 77 (instead of 78 as taken into consideration for the calculation or 85 as taken into consideration in the description). This has been amended in:
- Table 3 (L) modified from 2352 to 2351
 - Table 3 (P) modified from 2178 to 2177
 - Table 3 (Q) modified from +761 to +760

As it is a minor alteration, it does not modify the outcome of the calculations.
