Dear Sir, The electronic link on your website for me to give you my representations is not working.

I am a local Frisby resident and would like to point out the following.

I agree with your local plan for Frisby but object to you including the Water Lane and land to the south within this plan.

We have spent many months as a neighbourhood, developing our own neighbourhood plan and i strongly object to your dismissal of our wishes to have one site only for our future housing needs. I feel that Melton Borough Council is ignoring our wishes and am not sure that this stance is legal on your behalf.

with regards
Chris Gamble
