Importance: High

Dear Sir / Madam,

Please find attached my representations in respect of the draft Melton Local Plan 'Focussed Changes', ahead of the 23rd August submission deadline. There are four representations in total, two for the GADD2 site and two for the GADD3 site. These representations are made against two of the Focused Changes, FC4.1 Section 5.4 C1(A) and FC4.2 Appendix 1, hence the four representations in total. I would be grateful of an email acknowledgement to confirm safe receipt.

Mr Worley, I have copied you in to my email, given my previous representations 'went astray' I'm hoping you can ensure the safe receipt of the attached and their inclusion within the next stage of the process. To further note, I have written the representations for 'Gaddesby Community Group' and you should receive these shortly along with a list of those villagers confirming their support. They are similar but not identical to my personal representations attached, so would be grateful if both sets are included for submission within the next stage of the process.

Regards and Thanks

Chris Shatford
