

We wish to express our opposition and concern over the identification of the extensive land area which includes or borders the villages of Great Dalby, Thorpe Satchville, Ashby Folville, Barsby, Gaddesby, Kirby Bellars and Burton Lazars as suitable for wind farms comprising four or five turbines each up to 50 metres in height. This land area we believe is referred to as LCU8.

Villagers in this area have fought and won to prevent previous schemes and we are surprised that no account of this has been taken in your future planning. It seems that councillors, politicians and bureaucrats need to start listening to the people they represent and work for!

Mr & Mrs J Dolan
