Bottesford has already had housing increased. Any more would negatively affect services in the villages of Bottesford, Eastthorpe, Muston and Normanton.

There is a high risk of flooding. These villages have one of the highest risks of flooding in the East Midlands. Allocation of development sites must be where there is no flood risk of which there are many in Melton Borough.

The number of dwellings proposed would significantly increase the amount of traffic leading to issues of road safety and pollution.

Services including schools, doctors, transport, drains and sewers would be stretched beyond their capabilities. Bus services have been reduced significantly already which increases car use. Also effectively isolating villagers. Train services are limited and expensive. The cost return to Nottingham is £13.00 return. Some local authorities offer discounted train fares and a taxi alternative for senior bus passes.

There maybe a case to redesignate this area to Nottinghamshire situated as we are at the far edge of the authority.

lease set out what change(s) you consider necessary to make the Melton Local Plan legally compliant or sound:

Reduce the number of housing units to reflect the village status. Thus putting less strain on the services already outlined.

The areas suggested by the railway line ,over the level crossing are the height of foolishness as it opens up many more problems than it solves.

There are other areas closer to Melton which could accommodate more housing ,bearing in mind that villages have been overallocated compared to development in Melton itself.
