FRISBY ON THE WREAKE NEIGHBOURHOOD PLAN

APPENDIX D: Tree Survey (October 2016)

I have recorded the mature trees alongside the highways, adjacent to the hedge lines. The footways with mature trees outside the village have been noted up to the parish boundary with ROTHERBY (W) ASFORDBY (NW) KIRBY BELLARS (E) and as far as the A607 towards GADDESBY (S).

In the heart of the village smaller garden varieties have been included. These are also positioned adjacent to the footway.

New planting (indicated by N/P) within and outside the village centre has been recorded within the general survey. Elm saplings struggling to re-establish, have been indicated occurring alongside Rotherby Lane and Mill Lane.

The hedges surrounding the fields were largely planted at the time of enclosure, (1760) along with many of the ash trees and are predominantly hawthorn but with several other species included.

List of the generic groups found:

ASH (Fraxinus)
MAPLE (Acer)
OAK (Quercus)
HORSE CHESTNUT (Aesculus)
SWEET CHESTNUT (Castanea sativa)
BIRCH (Betula)
MOUNTAIN ASH (Sorbus)
CHERRY (Prunus)
CHERRY/PLUM (Prunus)
WILLOW (Salix)
YEW (Taxus)
LIME (Tilia)
HORNBEAM (Carpinus)
APPLE (Malus)
CRAB (Malus)
WALNUT (Juglans)
HOLLY (Ilix)
HAZEL (Corylus)
ACACIA (Robinia)
PEAR (Pyrus)
FIG (Ficus)
LABURNUM (Laburnum)
LAUREL (Prunus)
HAWTHORN (Crataegus)
LILAC (Syringa)
HIMALAYAN COTONEASTER (Cotoneaster frigidus)
TULIP (Liriodendron)
MAGNOLIA (Magnolia)
JUDAS TREE (Cercis canadensis forest pansy)
TAMARISK (Tamarix)
CONIFER (Various)

The pre-domination of ash trees in Frisby parish and the Wreake valley will have serious implications for the topography of the area, when we are struck with Ash die back disease. *(Chalara or ash dieback, is a disease of ash trees caused by a fungus called Hymenoscyphus fraxineus.)* New planting of diverse varieties now and long into the future is an important project which must be tackled, if we are to mitigate the loss of our magnificent enclosure trees and the attendant wildlife which depend on them for food, shelter and protection.

My thanks are extended to Bob Pratley who photographed some magnificent specimens and compiled the CD.

Jhone Billings (ex Tree Warden, Frisby on the Wreake Parish Council.)

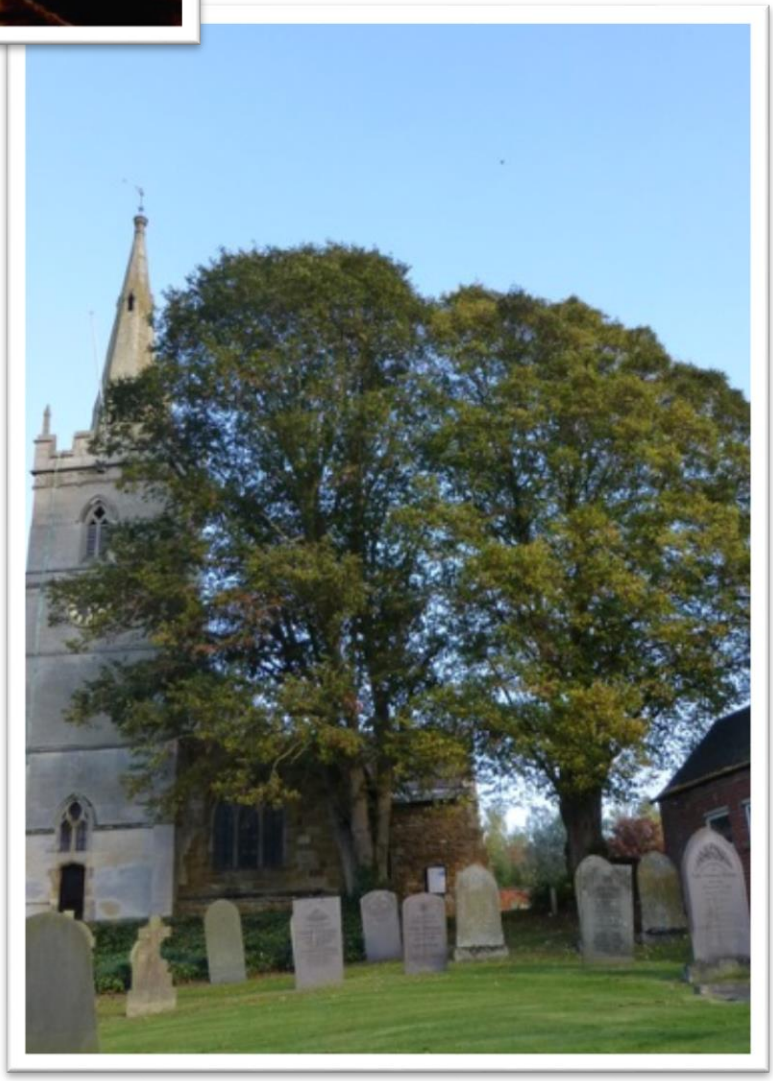
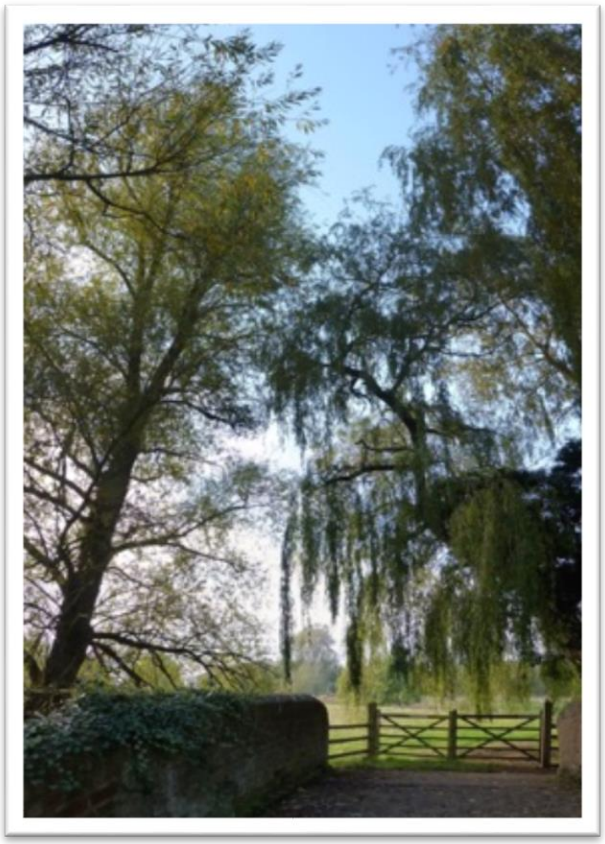
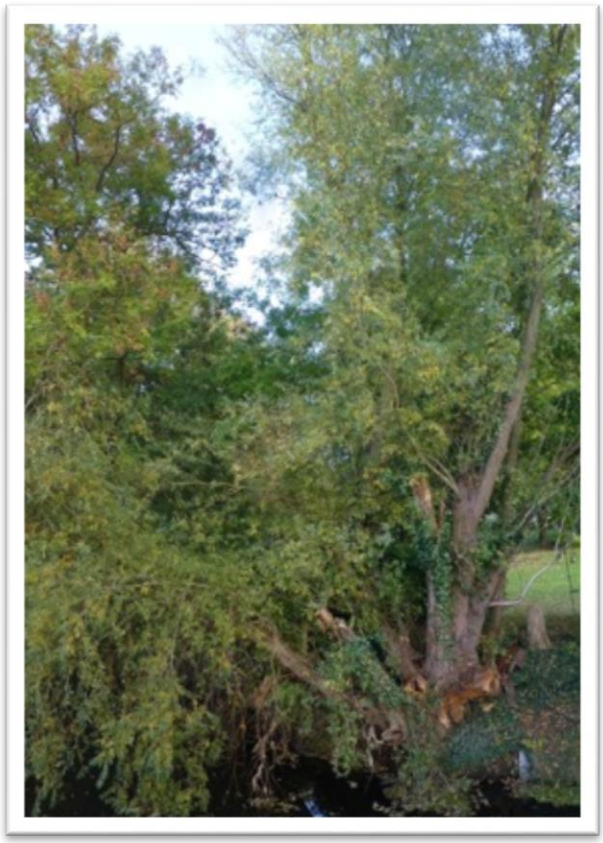
LIME TREES IN THE CHURCHYARD.



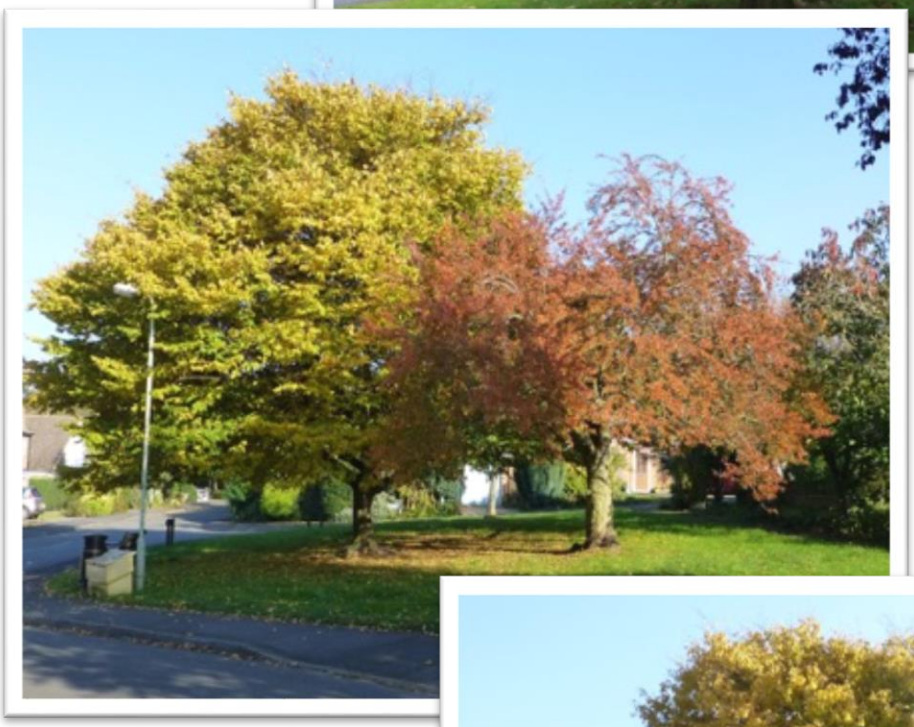




Mill Deeping willows

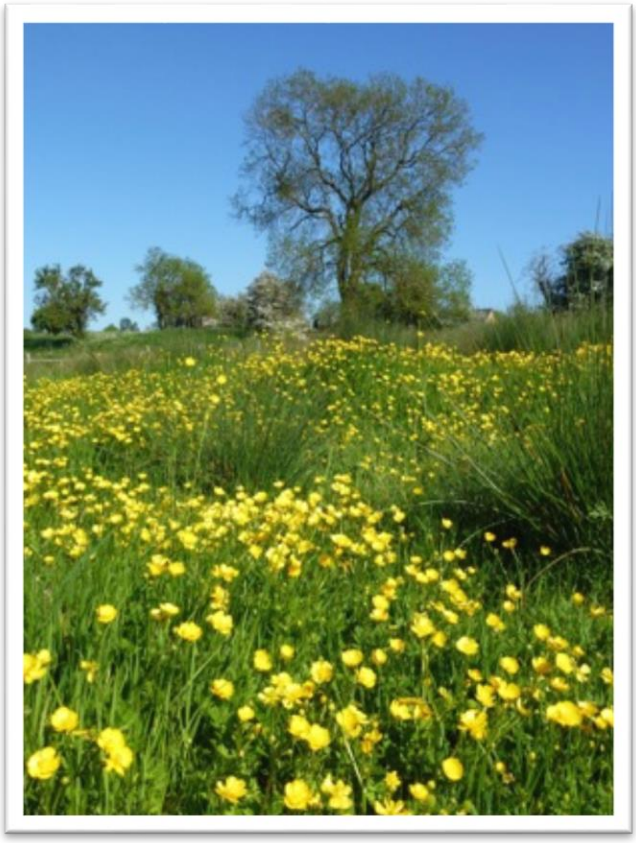
The Lollipop tree (hornbeam) on Hall Orchard and Hall Orchard green (below).

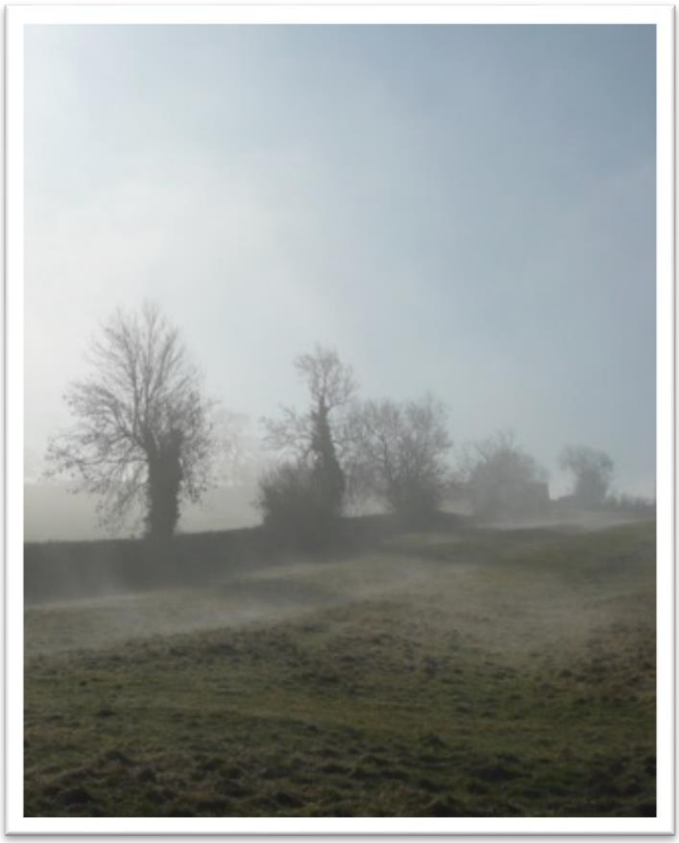
.



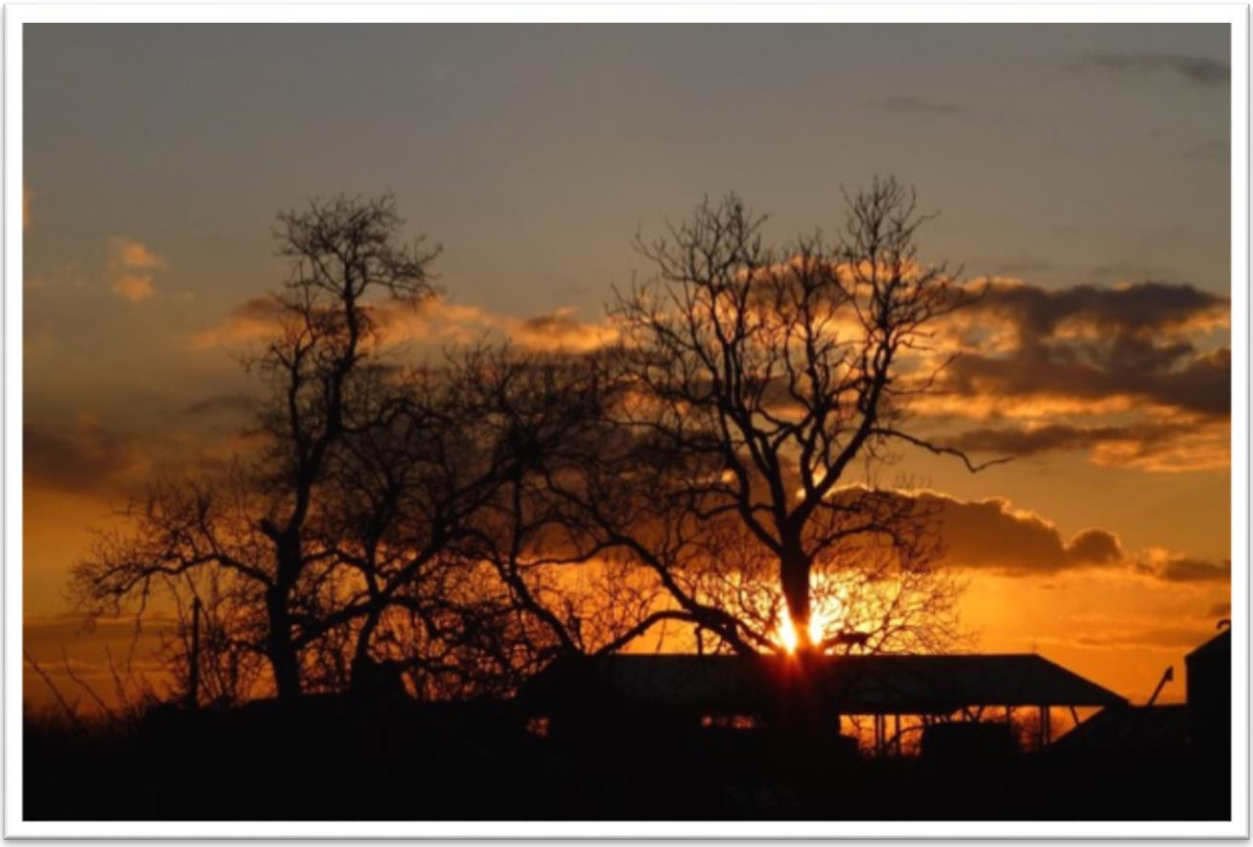
Ash trees around the parish: Mill Lane fields

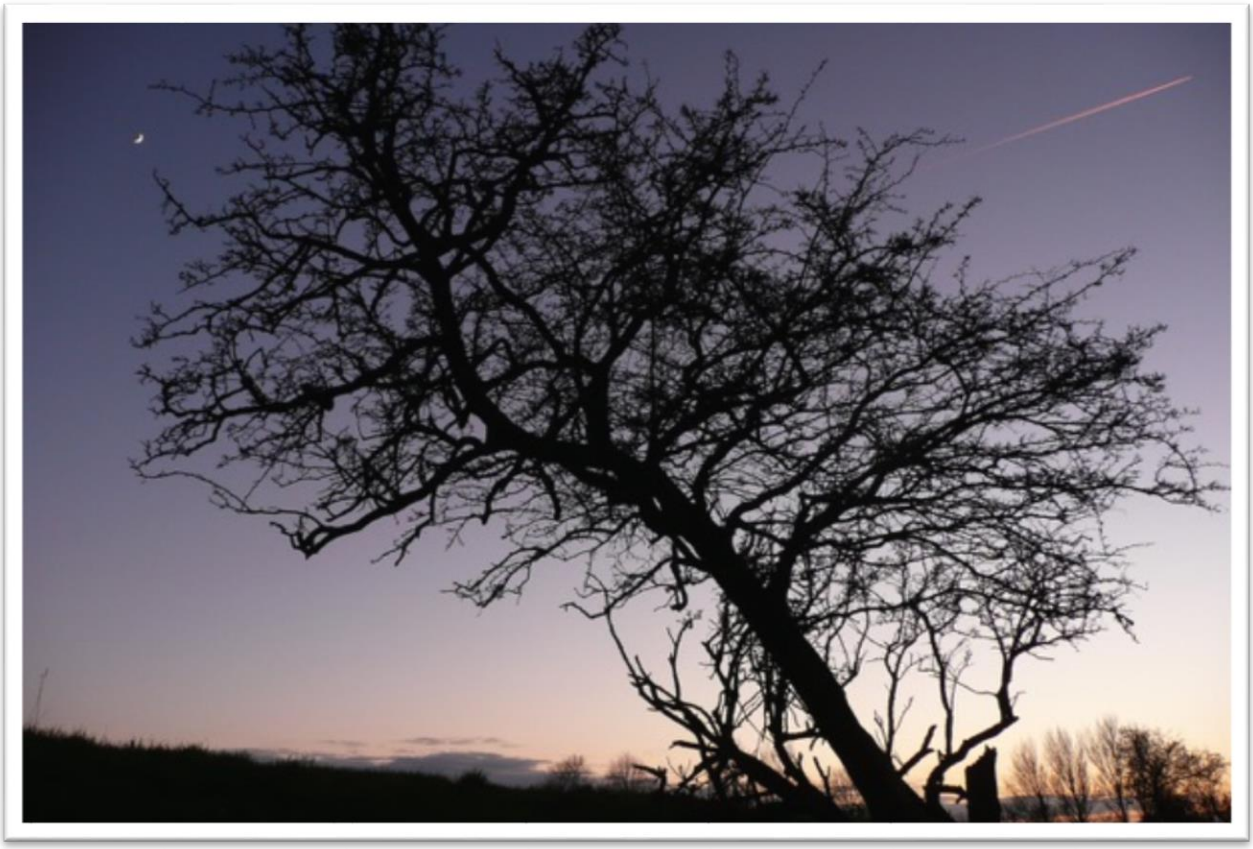
Ash trees around the parish: ridge and furrow fields behind Mill Lane





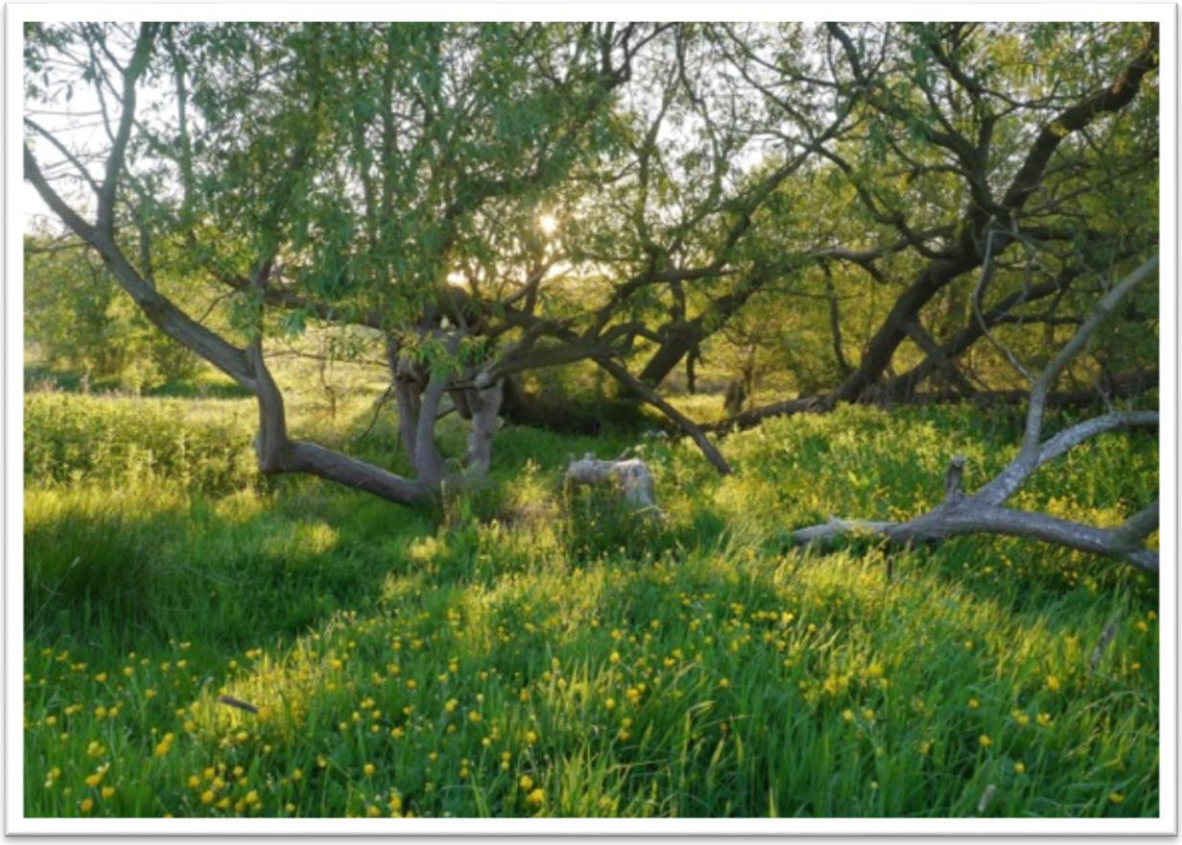
Ash trees around the parish: Rotherby Lane





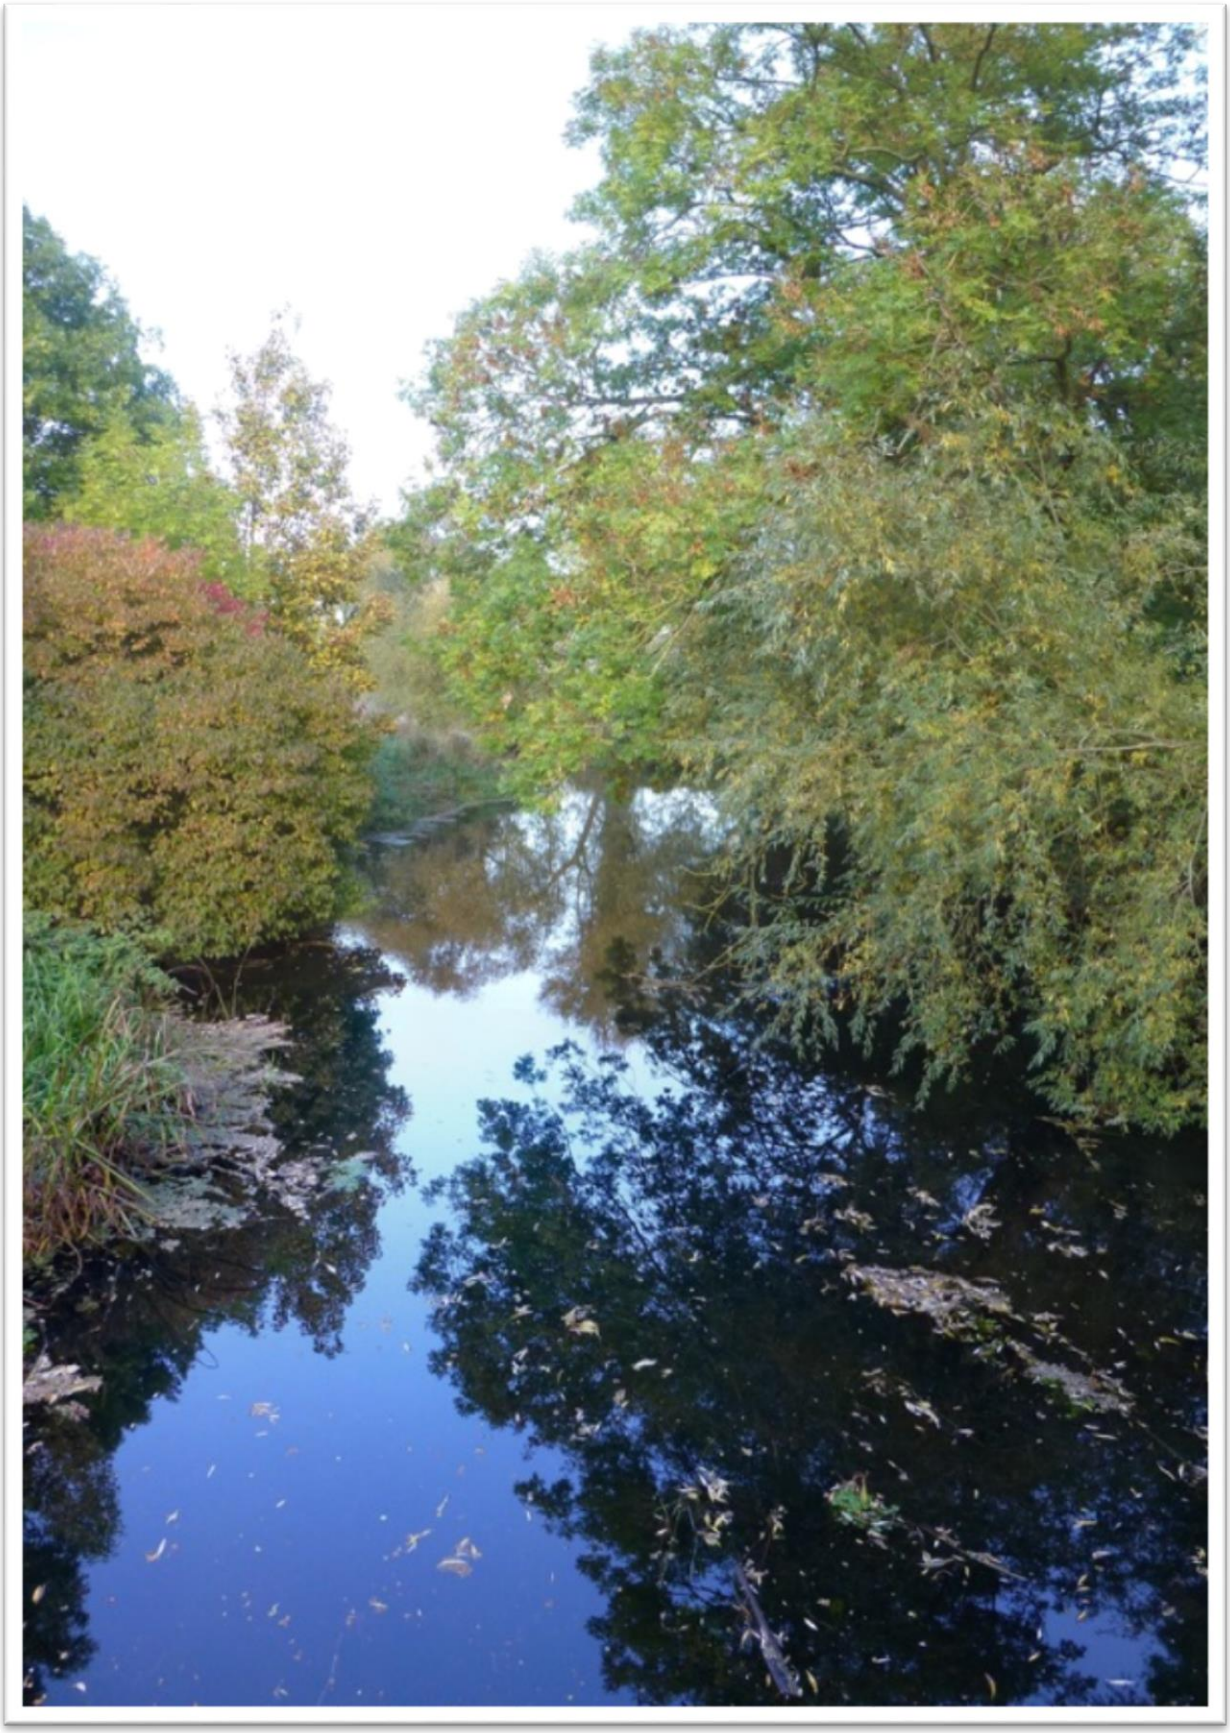
The swing tree. Ash on Leicestershire Round, used for many years with a rope swing.

Trees on Leicestershire Round: recumbent willow (top) and magnificent cedar in adjacent garden.



Leicestershire Round: view back towards Frisby on the Wreake

Leicestershire Round



Riverside trees: Bridge, Frisby on the Wreak

New planting by Fox Covert in Dimisdale

Proposal for Tree Preservation Orders

There are numerous mature forest trees located within the confines of Frisby civil parish. However, the risk of tree felling is greatest in the areas of human habitation and activity. Therefore, I have limited attention regarding TPO's to mature trees visible from the highways and pathways within the core of Frisby village.

- ASH x I Churchyard extension Mill Lane
- ASH xl New Vicarage garden Carrfields
- ASH x1 Mill Lane fields within the hedge between fields 016 and 017
- LIME x3 Old Vicarage garden Church Lane
- YEW x3 Old Vicarage garden Church Lane
- HORSE CHESTNUT xl The Butts Church Lane
- V MAPLE x2 Village Hall Water Lane
- CEDAR xl The Cedar's (rear garden) Water Lane (adjacent to public footpath)
- LIME x3 The Limes (front garden) Rotherby Lane
- Rear paddock to Limes, 2 mature forest trees (species unspecified)
- YEW xl Compton House (front garden) Main Street
- WALNUT xl Sandhurst (front garden) bottom of Great Lane
- SCOT'S PINE x3 Brookes bungalow, (front garden) Great Lane

In addition to this, NPAC have followed Regulation 14 comments and would recommend further TPOs on the following trees.

- All ASH trees in hedgerow on both sides of Rotherby Lane on approach to the village
- WILLOW trees in gardens along Mill Lane
- ASH in hedgerow between LGS 16/17
- OAK in garden of 4 Rotherby Lane
