Submitted to Melton Local Plan Update: Issues and Options Consultation  
Submitted on 2024-01-09 15:52:55

## Introduction

### Definitions

### How to use the Issues and Options

### About you

What is your name?

Name:  
Hyacinth Cabiles

What is your organisation? (if relevant)

Organisation:  
NHS Property Services Ltd

What is your Job Title/Role (if relevant)

Job title/role:  
Graduate Town Planner

What is your email address?

Email:  
[REDACTED]

Are you making a submission on behalf of someone else?

No

If you are submitting on behalf of someone else, please provide details:

Name (on behalf of):

Organisation (on behalf of):

### About you (equalities questions)

Please provide the first 5 digits of your Postcode (for example LE13 1).

Enter the first 5 digits of your postcode:

Gender: How do you identify?

[REDACTED]

If self-describe, please state :

Would you describe yourself as transgender?

[REDACTED]

What is your sexual orientation?

[REDACTED]

If other, please state:

What is your age?

[REDACTED]

Do you consider yourself to have a health problem or a disability which has lasted, or is expected to last at least 12 months?

[REDACTED]

If you selected other, please state:

What is your ethnic origin?

Please describe your ethnicity and race:

What is your religion?

[REDACTED]

Please state your religion:

## Vision and objectives

Relevant context to respond to the questions below

Question 1: Looking at the options above, which option do you support?

Question 1 - Option 1: No change:

Question 1 - Option 2: Refocused and simplified version [preferred option]:

Question 2: Please use the comment box below to explain your response or provide any additional information you would like us to consider in our review of this section

Please, provide further context:

Question 3: What do you think are the most important objectives to be covered by our Vision? Please select your top 3

Question 3 - Improving facilities for all of the community and providing the new infrastructure needed to support our growing population:

Question 3 - Addressing the causes and effects of climate change:

Question 3 - Ensure local housing meets the local communities current and future needs:

Question 3 - Supporting a diverse, competitive and innovative rural economy:

Question 3 - Enhancing Melton Mowbray's town centre:

Question 3 - Promoting high quality and well-designed development to help create healthy, sustainable and safe communities:

Question 3 - Enhancing nature and minimising harm to the natural environment:

Question 3 - Other (please specify below):

Policy C3. National Space Standard and Smaller Dwellings

Policy C3: Relevant context to respond to the questions below

Question 18: Looking at the options above, which option do you support?

Question 18 - Option 1: Delete the policy:

Question 18 - Option 2: Amend the policy [preferred option]:

Question 19: Please use the comment box below to explain your response or provide any additional information you would like us to consider in our review of this policy

Please, provide further context:

Policy (health considerations in policy/design)

Amendments to Policy C3 National Space Standard and Smaller Dwellings seeks to require (rather than support) the Nationally Described Space Standards to be met for all dwellings.

NHSPS supports this policy amendment as it strengthens the Council's position on requiring healthy homes with sufficient living space.

Current (adopted) Policy C9 Healthy Communities seeks to ensure all developments contribute to fostering good health and well-being within the community through a given set of requirements. This includes and addresses access to green spaces and local active green infrastructure, healthy homes, high quality residential amenity, safe and attractive streets, employment opportunities, densities of development and, air quality. Option 2 seeks to revise the policy and make health and wellbeing a key thread that runs throughout the entire plan. Amendments are proposed to refocus and reduce the policy to only cover health issues not better dealt with elsewhere in the plan, and to ensure clarity around when and how health impacts should be assessed.

NHSPS supports the adopted policy as it recognises the importance of fostering good health and well-being within a community but are in agreement with point 1 of supporting paragraph 13.2.1, which identified issues with the policy indicating there is opportunity for health and creating healthy places to be better prioritised in policy, identifying "Health and creating healthy places for all sections of the community" to be a key local priority. We recognise the aim to reduce replication and improve clarity within the plan, we wish to emphasise the importance of fully considering health impacts within local plan policies. Therefore, we set out a number of specific policy requirements that should be included within the plan to promote healthy places. We would recommend that Option 2 should include a review to ensure that the below requirements are included within the local plan policies in full.

Context

There is a well-established connection between planning and health, and the planning system has an important role in creating healthy communities. The planning system is critical not only to the provision of improved health services and infrastructure, enabling health providers to meet changing healthcare needs, but also to addressing the wider determinants of health.

The NPPF is clear in stating that "Planning policies and decisions should aim to achieve healthy, inclusive and safe places" (Paragraph 92).

Identifying and addressing the health requirements of existing and new development is a critical way of ensuring the delivery of healthy, safe, and inclusive communities. On this basis, we would welcome further consideration of healthy design requirements within the Local Plan, and would encourage engagement with the NHS on this matter.

NHS Property Services Limited, Registered in England & Wales No: 07888110

Specific policy requirements to promote healthy developments should include:

- Development proposals to consider local health outcomes
- Design schemes to encourage active travel, including through providing safe and attractive walking and cycling routes, and ensuring developments are connected by these routes to local services, employment, leisure, and existing walking and cycling routes.
- Provide access to healthy foods, including through access to shops and food growing opportunities (allotments and/or providing sufficient garden space)
- Design schemes in a way that encourages social interaction, including through providing front gardens, and informal meeting spaces including street benches and neighbourhood squares and green spaces.
- Design schemes to be resilient and adaptable to climate change, including through SUDs, rainwater collection, and efficient design.
- Consider the impacts of pollution and microclimates, and design schemes to reduce any potential negative outcomes.
- Ensure development embraces and respects the context and heritage of the surrounding area.
- Provide the necessary mix of housing types and affordable housing, reflecting local needs.
- Provide sufficient and high quality green and blue spaces within developments

We support the key aims of current Policy C9 and wish to be included within further engagement on the proposed amendments to this policy.

Recognising the aim to refocus and reduce the policy wording, we recommend that the Local Plan review ensures that the above requirements to support healthy places are incorporated into the Local Plan policies in a meaningful way, to reflect and prioritise the aim of creating healthy places and address the wider determinants of health.

### Policy C4. Affordable Housing Provision

Policy C4: Relevant context to respond to the questions below

Question 20: Looking at the options above, which option do you support?

Question 20 - Option 1: Delete the policy:

Question 20 - Option 2: Amend the policy to reflect National Planning Policy Framework and new evidence [preferred option]:

Question 21: Please use the comment box below to explain your response or provide any additional information you would like us to consider in our review of this policy

Please, provide further context:

Policy (Key Worker Homes / Homes for NHS Staff)

Current (adopted) Policy C4 Affordable Housing Provision seeks to meet the needs of those whose needs are not being met by the existing market through affordable housing provision.

NHSPS supports this policy on the basis that it seeks to meet the affordable housing need within the borough, but in agreement with Supporting Paragraph 10.2.1 we are also of the view that there is a need for the policy to be updated in light of the changes that have been made in National Planning Policy as to how affordable housing should be defined and the groups which can benefit from this.

The NPPF (Annex 2) defines 'Affordable Housing' as including housing for 'essential workers', which is defined as public sector employees providing frontline services in areas including health such as NHS staff. We therefore further recommend for Option 2 to include specific wording which is reflective of this definition and seek to also prioritise affordable housing for Key Workers and encourage the Council to also consider how existing housing affordability issues for NHS staff as essential workers can be addressed through planning policy.

#### Context

A wider, and increasingly prominent area of focus for the NHS is to explore ways in which affordable homes for NHS staff can be planned and delivered. Independent research undertaken by Price Waterhouse Coopers (UK Economic Outlook, July 2019) identified a significant issue with housing affordability for NHS workers that is having a strong bearing on staff retention, commute times and morale.

In undertaking further work to determine exactly what types of housing are needed and where, we suggest that the Council consider the need for affordable housing for NHS staff and those employed by other health and care providers in the local authority area. The sustainability of the NHS is largely dependent on the recruitment and retention of its workforce. Most NHS staff need to be anchored at a specific workplace or within a specific geography to carry out their role. When

NHS Property Services Limited, Registered in England & Wales No: 07888110

staff cannot afford to rent or purchase suitable accommodation within reasonable proximity to their workplace, this has an impact on the ability of the NHS to recruit and retain staff.

As the population grows in areas of new housing development, additional health services are required, meaning the NHS must grow its workforce to adequately serve population growth. Ensuring that NHS staff have access to suitable housing at an affordable price within reasonable commuting distance of the communities they serve is an important factor in supporting the delivery of high-quality local healthcare services. We recommend the Council:

- Engage with local NHS partners such as the Leicester, Leicestershire and Rutland ICB, NHS Trusts and other relevant Integrated Care System (ICS) partners
- Ensure that the local need for affordable housing for NHS staff is factored into housing needs assessments, and any other relevant evidence base studies that inform the local plan
- Consider site selection and site allocation policies in relation to any identified need for affordable housing for NHS staff, particularly where sites are near large healthcare employers.

The NHS advise that 'Homes for NHS Staff' should be a priority focus of the affordable housing provision where there is demand identified, such as in close proximity to key healthcare sites. Specifically, a portion of affordable housing could include a first right of refusal for NHS staff where there is a demonstrable need. We would welcome further discussion on this as a potential approach, along with other solutions to the issue of affordable homes for NHS staff as the Local Plan is developed further.

### Policy C7. Rural Services

Policy C7: Relevant context to respond to the questions below

Question 22: Looking at the options above, which option do you support?

Question 22 - Option 1: Delete the policy:

Question 22 - Option 2: Amend the policy [preferred option]:

Question 23: Please use the comment box below to explain your response or provide any additional information you would like us to consider in our review of this policy

Please, provide further context:

Policy flexibility (enabling the NHS to be able to promptly evolve its estate)

#### Introduction

Policy C7 Rural Services states that in the protection or enhancement of existing community services and facilities, proposals for the change of use which would result in the loss of community use will only be permitted provided that either alternative facilities are available, or it can be demonstrated by documentary evidence that the existing use is no longer viable.

NHSPS supports the provision of sufficient, quality community facilities, but objects to the proposed amendments pertaining to requirements placed on proposals resulting in the loss of community facilities. We would request that policy wording amendments are made to support the principle that where the NHS can demonstrate a health facility will be changed as part of NHS estate reorganisation programmes, this will be sufficient for the local planning authority to accept that a facility is neither needed nor viable for its current use, and therefore that the principle of alternative uses for NHS land and property will be fully supported.

#### Context

In order to enable the NHS to be able to promptly adapt its estate to changing healthcare requirements, it is essential that all planning policies enable flexibility within the NHS estate. On this basis, NHSPS would advise the Council that policies aimed at preventing the loss or change of use of community facilities and assets, where healthcare is included within this definition, can potentially have a harmful impact on the NHS's ability to ensure the delivery of facilities and services for the community. Where such policies are overly restrictive including through requiring periods of marketing, the disposal of surplus and unsuitable healthcare facilities for best value can be prevented or delayed, which in turn delays vital re-investment in the NHS estate.

The NPPF is clear in stating that Local Plans should adopt policies that "take into account and support the delivery of local strategies to improve health, social and cultural well-being for all sections of the community" (Paragraph 93b).

It is important that policies consider that some public service providers, such as the NHS, routinely undertake strategic reviews of their estates. Reviews of the NHS estate are aimed at improving the provision of healthcare services by increasing efficiencies, including through the disposal of unneeded and unsuitable properties. This means that capital receipts from disposals, as well as revenue spending that is saved, can be used to improve facilities and services.

Where it can be demonstrated that health facilities will be changed as part of a wider NHS estate reorganisation programme it should be accepted that a facility is neither needed nor viable for its current use.

With this in mind, we are keen to encourage that flexibility be granted to the NHS via the wording of any planning policy. This will ensure that the NHS can promptly and efficiently respond to the healthcare requirements of residents through the evolution of its estate.

#### Amended Wording

We recommend that the resulting amendments to Policy C7 should include the following wording (in red):

"Proposals for the change of use of community facilities, which would result in the loss of the community use, will only be permitted where it is clearly demonstrated that either:

1. There are alternative facilities available and active in the same village which would fulfil the role of the existing use/building, or NHS Property Services Limited, Registered in England & Wales No: 07888110
2. The existing use is no longer viable (supported by documentary evidence), and there is no realistic prospect of the premises being re-used for alternative business or community facility use; or
3. The loss of change of use of an existing built community facility is part of a wider public service estate reorganisation."

This change would directly address the issues outlined above; and would ensure that the NHS is able to effectively manage its estate, disposing of unneeded and unsuitable properties where necessary, to enable healthcare needs to be met.

#### Policy C8. Self Build and Custom Build Housing
