

Good afternoon. I am writing to say that I do not agree that the draft Local Plan is justified, effective or consistent with national policy for the following reasons.

There are certainly not the amenities to support the indicated proposals in respect of the Gaddesby village what are you thinking, you are seemingly intent on ruining a beautiful village I just cannot understand the thought pattern of the people involved. Obviously they do not live within this village better to ruin someone else's village than their own.

There is already houses being built that should be taken into account, the drainage and sewers are a concern and the increase in people just means the existing school cannot adequately cater for anymore there is nowhere to park now, there is no real public transport if you look at the report given by the Gaddesby Community Group it is clear that this village is being treated unfairly. WHY is this.

No doubt the people that are likely to sell their land for possible building of houses are in for a quick sum of money and are not residents of the village possibly neighbouring villages and maybe they should take an increased quota of new houses.

Really sad and disgusted with the people involved with this proposal and fully object to the draft Local Plan.

My family were brought up in Gaddesby over a 25 year period and one of my children has now returned to live in Gaddesby.

Please do not ruin the village
