**What 'soundness' means**

The Local Plan will be examined by an independent inspector whose role is to assess whether the plan has been prepared in accordance with the Duty to Cooperate, legal and procedural requirements, and whether it is sound. A local planning authority should submit a plan for examination which it considers is "sound" – namely that it is:

- **Positively prepared** – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
- **Justified** – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
- **Effective** – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and

- Consistent with national policy – the plan should enable the delivery of sustainable development in accordance with the policies in the Framework.

We write in the context of Bottesford and we have seen the representations submitted by Antony Aspbury Associates on behalf of BDW concerning our client's property at Bottesford. We support the representations they have submitted in relation to the Local Plan Focused Changes. We share their view that our client's property is a much better site for housing growth than other sites proposed not only in the village of Bottesford, but other rural locations.

Please set out what change(s) you consider necessary to make the focused change legally compliant or sound, having regard to the test you have identified at 5 above where this relates to soundness. We challenge the expediency of point 1 in the revised policy. In some locations it may not be possible to obtain the support suggested because even though this would be justified sound development in accordance with the principles of the NPPF, the community may be completely against any form of development. Some communities might not readily accept that growth needs to happen, which would be consistent with the principles of sound development where there should be a presumption to grant a planning consent.
