Please provide your comments here:

It is not clear if the proposal would benefit existing residents or just new housing. Whilst superfast broadband is available in the village of Burton Lazars as noted performance is dependent on the distance from the local street cabinet which is located on the main road. As such speeds of no more than 24mbps are achievable in my location and more likely to be in the area of 15mbps

Please provide your suggestions below:

More infrastructure should be provided to support existing dwellings to obtain improved broadband connectivity.
