

MELTON LOCAL PLAN EXAMINATION

Inspector's Response to Melton Borough Council's Letter ID1A

Thank you for your letter dated 29 November concerning my initial questions. I note that while you intend to respond today to the other questions I have raised in ID1, you will not be able to provide the evidence I have requested about 5 year housing land supply and delivery matters until 20 December. Notwithstanding this, I advise representors not to delay preparation of any written statements they wish to provide on these matters, and they should ensure that statements are submitted by the 8 January deadline. There will be an opportunity to discuss the implications of the new evidence at the hearings and I will consider if any further steps may need to be taken in this regard in due course.

Mary Travers

Inspector
