I feel that development in Bottesford has been left to get out of control with no thought to the impact on the existing amenities in the village (and this being the main thrust of the whole plan) to turn the village into a town while there is no development nearer to Melton which is in fact the town. We have no great travel service from our village and so cars would be used thus a great impact on our environment and the surrounding roads.

Our drainage system that is already under strain will be more so, also the fact that a vast majority of our village is on flood plain does not seem at all to be taken in consideration. we have had a development approved recently that sits on flood plain and is being built on now with no adjustment to the plans for this just having them raise up the ground level by several feet with no thought for the surrounding properties and the impact on the environment. how this was allowed to go through with no adjustment is amazing.
