I have examined the proposals for Hose housing land allocation. My comments are as follows HOS1 25 houses This application is still undecided but is on open ground and I assume will be passed

HOS2 22 houses

HOS 3 10 houses

These two site are obviously linked and I object to these being included in the plan for the following reasons # With HOS1 we will have 25 houses added to the village and this is sufficient for a small village like Hose the demand from a further 32 homes, with predominantly young families, will overwhelm the school and change the village.

The public transport is very poor with only a bus to Melton/Bingham no links to Nottingham/Grantham/Leicester from the village the only option is to drive.

The access to the site will be opposite or very near HOS1 and the lane is narrow and cannot safely support the addition traffic as most will have two cars due to poor transport links.

The site for these 32 houses is heavily wooded with many mature trees, this area which is adjacent to a green lane will be destroyed by development. This is the only area like this in the village and needs to be retained.

The site supports a vast array of wildlife due to it being different to the surrounding areas as these are all open farm land, so this area is unique habitat. I have seen owls, woodpeckers, deer, foxes , newts etc all these would not survive any development of this area .

The Land is of multiple ownership with some in joint ownership and I believe not all owners are aware of this proposal so the site cannot be classed as available so should not be identified as such in the local plan.

I believe this land should not be identified in the local plan as available for possible development when sites such as electro tech industrial site, which is almost inaccessible by articulated lorries without using unsuitable roads and lanes, is not shown as suitable for development as it is clearly a country mile more suitable and far less environmentally and socially damaging than HOS2 and HOS3.
