The unallocated sites where planning permission will be granted for small scale development of up to 10 dwellings in Service Centres, 5 dwellings in Rural Hubs, and 3 in 'Rural Settlements' suggests that it is ok to build houses in unsustainable village locations.

There can not be a limit on this housing, as the village envelopes do not exist anymore. It is already happening.

I would reiterate the protection of the separate identities of Burton Lazars and Eye Kettleby in accordance with Policy EN4 and respond to settlement fringe sensitivity in accordance with Policy EN1 to create a locally distinctive development and an improved town edge;

This must be ensured to stop the coalescence of the 2 villages of Burton Lazars (east and west) and Eye Kettleby from the edge of Melton Mowbray.

Application diagrammes currently show that this will happen !!

In a letter in August 2016 from the Minister of State for Housing and Planning and Minister for London, Gavin Barwell MP regarding the inclusion of these areas in the local plan, said that the local authorities did not need to identify suitable areas for wind energy development in their Local Plans. The NPPF does not include a requirement to identify suitable areas for wind energy development in a local plan. If it was sound not to have a policy for wind turbines in the plan, and there was no support from the local population , then why put them in, especially as the Government is not looking to deploying further onshore wind turbines due to the cost of the subsidies.

These are large and diverse areas on a map, not sites.
