

Dear Sir/Madam,

Thank you for consulting Natural England on the Frisby Neighbourhood Plan which has now been submitted to Melton Borough Council for Examination.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England does not consider that the plan will have any likely significant effects on any internationally or nationally designated nature conservation sites and welcomes the broad principles of the plan and some of the specific policy proposals. It is consistent with the National Planning Policy Framework (NPPF) and set within the context of Melton Borough Council's emerging Local Plan.

We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.

For any queries relating to the specific advice in this letter only please contact me on 0300 060 0571. For any new consultations, or to provide further information on this consultation please send your correspondences to [consultations@naturalengland.org.uk](mailto:consultations@naturalengland.org.uk).

Kind regards

Sean Mahoney

Lead Adviser

Sustainable Development

**We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.**

**Natural England offers two chargeable services – The Discretionary Advice Service ([DAS](#)) provides pre-application, pre-determination and post-consent advice on proposals to developers and consultants as well as pre-licensing species advice and pre-assent and consent advice. The Pre-submission Screening Service ([PSS](#)) provides advice for protected species mitigation licence applications.**

**These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, reduce the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.**

We now offer free and chargeable advice to land owners and managers planning works on Sites of Special Scientific Interest through the [SSSI Advice Service](#).
